Celebrating the Danish EU Presidency, the Network for Children and Culture invites politicians, researchers, professionals, artists, art educators and EU citizens to an inspiration conference on art and culture for children and young people.

The conference will focus on the importance of presenting art and culture for small children, schoolchildren and young people throughout their childhood and teenage years.

The conference programme includes a wide range of keynote speakers, among these Beth Juncker and Paul Collard, and professional performances covering the latest developments in art and culture for children and young people.

After the official programme, the Network for Children and Culture and the City of Copenhagen cordially offer you a choice between different tours around Copenhagen with stops at some of the city's many vibrant cultural environments, insitutions and organisations.
